

XVIII Congress of the European Association for Cranio-Maxillofacial Surgery

Barcelona • September 12th to 16th

third announcement and call for papers

Welcome to Barcelona

Barcelona is located on the coast and bounded by the Collserola ridge and rivers Besos and Llobregat. The city is less than 150 kilometres from the Pyrenees. Barcelona's location on the shores of the Mediterranean means that it enjoys a warm, welcoming climate and pleasant temperatures all year round. Rainfall is occasionally heavy, with levels of around 1.000mm per year. This helps to maintain the many green areas around the city.

Barcelona is the city of marvels. The old town, comprising the Gothic Quarter, the Ribera and Raval districts, and famed for its historical monuments, narrow streets and bohemian atmosphere, is a perfect place for a stroll. A wander through the maze of streets is essential in order to understand the different periods in the history of Barcelona and to admire its finest monuments: traces of the Roman wall glimpsed between well-preserved Gothic buildings, the remains of the Jewish Quarter, witnesses to the industrial expansion of the 19th century and the design of the 20th. Musicians in the medieval streets provide the ideal accompaniment. The city also has the biggest selection of modernist architecture: a genuine open-air museum. Most of the buildings, built in this unique style, are in the Eixample, a district planned in 1860 by the engineer Ildefons Cerdà which constitutes a unique model of European urban planning. The Sagrada Família, the Casa Batlló, the Casa Amatller and the Casa Milà are some examples of this.

Barcelona is the only European capital with over four kilometres of beaches where you can enjoy the most modern amenities, the beaches are not far from Barcelona's historical and cultural landmarks, and they have opened up our modern and cosmopolitan city to the sea. Today, the Olympic Harbour and the old port, the Port Vell, are some of the main meeting places, with many bars, restaurants, shops and recreational areas. Barcelona is, without a doubt, a city of marvels: on foot, by bicycle or bus, it is a magnificent spectacle which you should not miss.

Barcelona is known throughout the world as a cultural city, with an important heritage and a permanent and exciting range of activities on offer. It is a city of renowned architectural interest, from its Roman walls to the new urban planning schemes of the eighties. Particular highlights are its modernist heritage and contemporary architecture. Over 40 museums: monographic art collections such as the Museu Picasso, the Fundació Joan Miró and the Fundació Antoni Tàpies which hold permanent exhibitions of works by the artists as well as temporary shows; the world's finest collection of Romanesque art at the Museu Nacional d'Art de Catalunya; temporary exhibitions of contemporary art at the Museu d'Art Contemporani de Barcelona - MACBA; and numerous art galleries.

Barcelona is famed for the wide variety of its musical events. From classical music, opera and ballet, through jazz, flamenco, pop and rock, to the most innovative festivals. In 1999 the city regained its opera house, the Gran Teatre del Liceu, and opened the Auditori with a programme featuring the most diverse genres and musical styles. In addition to these musical events we find those of the Palau de la Música Catalana, a jewel of modernist architecture.

Welcome letter

Dear Friends and Colleagues,

On behalf of the Organizing Committee, it is my great pleasure to welcome you to Barcelona and to the 18th Congress of the European Association for Cranio-Maxillofacial Surgery.

The Scientific Committee is working to set up an outstanding program with symposiums, state of the art conferences, panels, controversies and masterclasses covering the whole field of cranio-maxillofacial surgery. Experts in reconstruction oral cancer, implant surgery, orthognatic surgery, rhinoplasty will share their experience and bring up-to-date and didactic information in this rapidly evolving field.

The congress venue is very spacious with a large conference hall and smaller halls. The site is well placed in the city with several hotels within walking distance and easy access to the Underground and Bus services. Barcelona's public transport is efficient and fairly cheap. Taxi service is found everywhere and 10 Euros will take you from the periphery to the centre of town. We will try our best to ensure that the congress' social events keep up the high standard attained in previous occasions.

We would like to give a special welcome to our Guest Societies which has accepted to be our guests in our congress. We would also like to express our thanks to the industries attending the meeting for their generous support and especially to the Gold and Silver Sponsor companies.

We hope that you will enjoy the Congress and that your interaction with your colleagues from many different countries will stimulate a creative exchange of ideas and will be personally rewarding. We also hope and trust that you will enjoy your visit to the very beautiful city of Barcelona in September 2006.

We look forward to seeing you in Barcelona.

Sincerely yours,

Guillermo Raspall, MD; DMD
President EACMFS 2006

Abstract submission

All delegates wishing to present a paper must do send their abstracts through the Congress web site. This means that traditional ways of sending in abstracts (i.e. e-mail, fax, mail) have been ruled out.

This page illustrates some of the header pages on the Congress web site. The web site structure is similar to that of other congresses (presentation, scientific programme, general information, committees, etc) but for the first time includes the possibility of sending paper abstracts online. In order to send your abstract, you must click on the “Abstract Submission” tab. However, please note that to do so you must be a registered user. Once you have registered your name and chosen your password, you can access the “Abstract Submission” section, where you will be required to fill out the full details of the main author and any co-authors (up to a maximum of 3).

Abstracts will be limited to 250 words maximum, with a minimum of 200 words, with a tab where any symbols can be inserted. Only text will be allowed – neither figures nor tables can be included.

In addition, main authors will have the possibility to modify the text submitted simply by inserting their username and password until 00.00 hrs of 2nd April 2006, **since the deadline has been set for 1st April.**

Social programme

Tuesday, September 12

OPENING CEREMONY AND PRESIDENTIAL RECEPTION (included in the registration fee)

The Presidential Reception will take place on Tuesday, September 12 at 06.00 pm, a welcome cocktail will be served for all registered participants and accompanying persons.

Wednesday, September 13

THE PENEDÉS, A DINNER BETWEEN THE GRAPES (not included in the registration fee)

Witness for yourself the old tradition of winemaking working hand in hand with the very latest technology. Learn the how, what and when of grape cultivation and harvesting. Walk among barrels and smell the wine as its ages. Enrich and update your knowledge during the tour in one of the top of wine producers.

Thursday, September 14

GALA DINNER (not included in the registration fee)

Evening Gala at the Royal Shipyards of Barcelona

Science, art and gastronomy will be together in our evening gala dinner at one of the most emblematic buildings in Barcelona, the Royal Shipyards of Barcelona. The Maritime Museum of Barcelona is located in the building of the Drassanes Reials (Royal Shipyards) of Barcelona, at the foot of the mount of Montjuïc, in the area called the Port Vell (Old Port) of Barcelona. The original function of this building was to house the shipyards for the Catalan-Aragonese Crown. The Royal Shipyards of Barcelona are a unique example of secular Gothic architecture for maritime uses in the world, because though similar facilities existed in the Mediterranean, this is the only one that has conserved the original structure and layout.

Announcement

EBOMFS-Announcement

INTRODUCTION: The European Board of Oro-Maxillo-Facial Surgery (EBOMFS) in common with other European Boards of recognized UEMS-Specialties is conducting RQ (Recognition of Qualification) - Assessments. The European Board exists to enhance the standards of training and practice through different means. Among those is the EBOMFS - Assessment, which will give the title of "Fellow of the EBOMFS". The Assessment is voluntary and does not affect free movement of doctors in Europe.

ELIGIBILITY: Candidates for the R.Q.-Assessment must satisfy one of the three following terms.

- Recognized specialists in oral and maxillofacial surgery in one of the countries of the E.U. where the specialty is based on a medical and dental degree.
- Recognized specialists in oral and maxillofacial surgery in one of the countries of the E.U. where the specialty is based on a medical degree.
- Recognized specialists in oral and maxillofacial surgery in one of the countries of the E.U. where the specialty is based on a dental degree, provided this specialist also holds a medical degree.

The candidate for the R.Q.-Assessment shall have been a recognized specialist in oral and maxillofacial surgery for at least 3 years. It shall be demonstrated that he or she has effectively practised oral and maxillofacial surgery during this period. It shall be proved that he or she has shown continuing scientific and / or continuing medical training interest in the specialty.

STRUCTURE: The assessment will be in two parts.

- 1.0. Curriculum vitae and logbook in English.
- 2.1. Multiple Choice Exam (MCQ) in simple English.
- 2.2. Oral Examination (interview) of the candidate.

The Oral Examination will be carried out using one out of the following four languages: English, French, German, Spanish. Exceptionally, if the candidate cannot cope with any of these four languages and do not agree with the offered suggestion should contact the Secretary General for further proposals in order to find appropriate examiners for Oral Assessment. The oral interview will last one hour and consists of two parts:

- A. Questions covering the whole scope of the specialty.
- B. Case report. Each candidate must be ready to present three well documented personal cases: (using slides, photographs, medical imaging, casts, histology, laboratory findings etc...). Candidates who do not pass the MCQ will not be permitted to enter the Oral Examination. The Oral Examination of the assessment will be conducted by a panel of three assessors selected by the board. The chairman of each jury will be from the same country as the candidate. The decision of the assessors will be final.

The fee for the assessment will be 400 € payable with the application for the assessment. A copy of the bank draft or a cheque must be enclosed. The fee cannot be refunded. The deadline for Application for the 2006 Assessment will be the 15th of March 2006. The assessment will take place just before the XVIII EACMFS Congress in Barcelona, Spain, from Sept. 10th to Sept. 11th, 2006. Specialists wishing to take an Assessment or wishing to obtain further instructions and application forms should contact the Secretary General of EBOMFS, President of the Scientific Committee of EBOMFS or the national EBOMFS representatives.
