8th Euregional Course on

Aesthetic and Reconstructive Surgery of the Face

Limited Workshop Attendance

Fresh Frozen Cadaver Preparation

Maastricht / NL

March 17th – 18th, 2017

25 YEARS RESEARCH SCIENCE TEACHING EDUCATION

Including optional hands-on pre-course on:
Palate Surgery - Principles in Cleft Surgery

In conjunction with the
MUMC Maastricht

8th Euregional Course on Aesthetic and Reconstructive Surgery of the Face Maastricht, March 17th – 18th, 2017

Dear Colleagues,

Join us at the 8th Euregional Course on Aesthetic and Reconstructive Surgery of the Face which will focus on surgical approaches to the face and the dissection of facial soft tissues. Again we were able to assemble an outstanding international faculty to share their exceptional experience by a great variety of lectures and clinical presentations. Anatomical, clinical and practical considerations come to the fore: blepharoplasty, midface- and face-lift procedures, local skin reconstructive techniques, lip- and face reconstruction are the key issues of the course.

Special attention will be paid to the topographic anatomy of the face. The audience gets the chance to discuss each surgical step with the surgeon, the anatomist and the faculty members.

Furthermore we offer the opportunity of a **dissection course with exclusively fresh frozen specimen.** The participants will be able to perform all desired procedures and surgical techniques comparable to the real theatre setting. We provide a detailed dissection manual with illustrative step-by-step instructions. Additionally each participant will have the chance of personal teaching by our team of experts.

2017 will be the first time that the faculty offers the additional option of adding an interesting pre-course day on principles in cleft surgery including cadaver dissection as well.

We will provide a professional, yet intimate atmosphere and are looking forward to welcoming you in Maastricht.

Peter Kessler
MUMC Maastricht

Gwen Swennen
GH St-John Bruges-Ostend

Course Topics

- Anatomy of the face
- Anatomy of the skin
- The aging skin
- Approaches to the face under aesthetic aspects
- Dissection of the skin
- Dissection of the SMAS layers
- Lifting and suturing techniques
- Dissection of the facial nerve
- Dissection of local skin flaps
- Lip reconstruction
- Fillers and Botox

Course under the auspices of the S.O.R.G. Academy

Course Directors and Organization

Prof. P. Kessler,
Maastricht, NL

Prof. G. Swennen,
Bruges, BE

University Clinic for Cranio-Maxillofacial Surgery
MUMC Maastricht
Postbus 5800

Distinguished Guest Faculty

M. Gaboury, Quebec, CA
A. Herrler, Maastricht, NL
K. Ingels, Nijmegen, NL
A. Lataster, Maastricht, NL
J. Camilo Roldán, Hamburg, DE

Program (optional course day) Thursday, March 16th, 2017

(additional registration necessary)

Course on Palate Surgery – Principles in Cleft Surgery

Anatomy & Embryology, Faculty of Health, Medicine & Life Science
Maastricht University, Universiteitssingel 50, 6229 ER Maastricht

**Hands-on course, limited attendance max. 8 participants,
per participant one fresh-frozen cadaver specimen,
09:00 – 16:00**

- Brief lectures on embryology and anatomy of the palate (normal & cleft)
- Surgery of the hard palate
- Surgery of soft palate (velum) – dissection
- Palate repair
- Velopharyngoplasty (preparation)

Program

Friday, March 17th, 2017

Maastricht, van der Valk Hotel

08:30 – 09:00 Registration

09:00 – 09:30 Introduction **Kessler**

09:30 – 10:30 Facial anatomy – part I: **Lataster/Herrler**

- The skin – regional differences
- The lymphatic and vascular system – drainage of the face

10:30 – 10:45 Coffee Break

10:45 – 12:00 Facial anatomy – part II: **Lataster/Herrler**

- SMAS and mimic muscles – a functional system
- The facial and the trigeminal nerve – a good team
- The parotid gland from a topographic point of view

12:00 – 12:30 Discussion

12:30 – 13:30 Lunch Break

Friday, March 17th, 2017

Continuation

13:30 – 14:00 Photo documentation in aesthetic surgery of the face **Kessler**

14:00 – 14:45 Facial anatomy as a key issue in reconstructive and aesthetic surgery of the face **Roldán**

14:45 – 15:30 Anatomic basis and clinical guidelines for safe application of HA fillers and BTX **Gaboury**

15:30 – 16:00 Coffee Break

16:00 – 16:45 “Step-by-step” surgical technique towards brow-lift, face and neck-lift **Swennen**

16:45 – 17:30 Blepharoplasty – anatomy, incision lines, variations **Ingels**

17:30 – 18:15 The lips – an aesthetic entity of its own **Roldán**

18:15 – 18:30 Introduction to the cadaver dissection course **Böckmann**

19:30 Get-together and dinner with the faculty – Restaurant in the Museum, Vrijthof, Maastricht

Saturday, March 18th, 2017,

09:00 – 16:00 (Bus transfer from Hotel van der Valk)

Anatomy & Embryology, Faculty of Health, Medicine & Life Science
Maastricht University, Universiteitssingel 50, 6229 ER Maastricht

- Hands-on course with exclusively fresh frozen specimen
- Limited attendance / one specimen for two participants
- Personal teaching by the faculty with step-by-step teaching
- Incision / approaches for lifting procedures
- Dissection of the SMAS and sub-SMAS
- Dissection of the fasciae (superficial/innominata/deep) of the temporal muscle
- Dissection of the platysma
- Dissection of the facial nerve
- Dissection of typical local flaps
