CMF Surgery

The Arnett FAB™ Orthognathic Surgery System

The Original

This up-to-date Arnett system enables fast, effective, and stable fixation while correcting the face, airway and bite with Orthognathic Surgery.

"This unique system designed in 2010 is the culmination of 35 years of exclusive Orthognathic Surgery practice. The tabbed plates are designed to place screws over thick bone with minimal bending. The screws by KLS Martin are the most effective ever."

G. William Arnett,
DDS, FACD
