

Clinical Digital Photography for Surgeons, Doctors and Dentists

The ability to take, process and archive digital photographs is essential when hospital medical illustration departments may be unavailable or non-existent. This practical course provides surgeons, doctors and dentists with the skills to produce accurate, high-quality digital photographs.

Course content includes

- Basic camera, lighting and composition techniques
- Medico-legal aspects of clinical photography
- Processing, archiving and storage of images
- DSLR videoing

Course format

- Comprehensive practical workshops, supported by clinicians and professional photographers
- Video and short slide presentations
- Small group work

Who should attend?

CT1-2, ST3-8, consultant, GPs and SAS Grades

Delegate feedback

'Thoroughly enjoyed the course from start to finish. Had a lot of questions answered and feel confident that I can handle a clinical photograph in all its aspects - from settings, actual taking, post processing, archiving and the legal aspects too.'

Dates

29 - 30 March 2016

Held at

RCS London

Course fee:

Full Course Fee:
£405

Course director

Mr Steve Langton
