Overview

This three day fresh cadaver workshop focuses on the resective aspects of Head and Neck Surgery with an UK based faculty that encompasses expertise from Maxillofacial, ENT, Plastic and Head & Neck surgery.

The short interactive lectures focus on current surgical techniques and outline the modern management of Head and Neck malignancy in a multidisciplinary setting.

The operative surgery practice on fresh cadaveric material provides realistic surgical simulation with close supervision with only two dissecting participants per operating table (one on each side).

This workshop is directed towards maxillofacial, ENT and plastic surgery trainees with an interest in Head and Neck surgery.

Objectives

- To present a balanced multidisciplinary approach to the management of Head and Neck malignancy
- To develop the surgical skills necessary for interventions relevant to the Head and Neck area through cadaveric surgical simulation.

Course organisers:

Mr Liviu Hanu-Cernat
Consultant Oral and Maxillofacial Surgeon
University Hospitals Coventry and Warwickshire
Clifford Bridge Road, Coventry CV2 2DX
LiviuHanu-Cernat@uhcw.nhs.uk
