

Conference Announcement

AOCMF ARONJ Conference

Anti-osteoclastic Drugs and Their Impact on Maxillofacial and Orthopedic Bone Biology, Disease, Diagnosis, Prevention, Surgery & Treatment Modalities

Monday, September 12, 2016, London, United Kingdom

Afternoon conference with debate

AOCMF launched a Clinical Priority Program sponsoring research projects to investigate on the field of ARONJ ('Anti-osteoclastic Drugs and Their Impact on Maxillofacial and Orthopedic Bone Biology, Disease, Diagnosis, Prevention, Surgery, and Treatment Modalities') and is now excited to share first interim results. The conference brings together experts and leading principal investigators, encouraging debate and discussion on this topic. This conference is open to all those interested and involved in this research field.
