

# AOCMF Course—Advances in Condylar Fractures (with Human Anatomical Specimens)

**21–22 November 2017 Ljubljana, Slovenia**

## Course Director

**Aleš Vesnaver**

University Medical Center Ljubljana (SI)

## Course Chair

**Vojko Didanovič**

University Medical Center Ljubljana (SI)

## Course Chair

**Tadej Dovšak**

University Medical Center Ljubljana (SI)

## Course description

The course teaches participants the complex anatomy of the retromandibular, submandibular and temporal regions, how to diagnose a condylar fracture, and how to safely approach the fractured condyle, reduce the fracture, and stably fix it. Comprehensive lectures concentrate on the understanding of core material. Practical sessions teach the application of AO principles to the management of common injuries. Video demonstrations are used to supplement the practical

exercises. Additionally, different approaches to fractures are demonstrated and then practiced hands-on on fresh frozen human cadaver heads. Discussions are held throughout the course.

## Target participants

Oral and Maxillofacial surgeons, ENT surgeons, and Plastic surgeons.

## International Faculty

### Sanford Ratner

UCLA Medical Center, Santa Ana, California (US)

## Regional Faculty

### Daniel Danielsson

Karolinska University Hospital, Stockholm (SE)

### Michael Rasse

Universitätsklinik für Mund-, Kiefer- und Gesichtschirurgie Innsbruck (AT)

### Ralf Schön

Oral and Maxillofacial Clinic Hagen and St. Josefhospital, Hagen (DE)

## Course registration fee:

**Early bird** (full course only): 1000 EUR  
(expires August 31, 2017)

**Course fee:** 1200 EUR

**Lectures only Day 1:** 540 EUR

**Language:** English
