Aesthetic and Reconstructive Surgery of the Face

Limited Workshop Attendance

Fresh Frozen Cadaver Preparation

Maastricht / NL

Feb 28th - March 2nd, 2019

Including a pre-course on Cleft, Lip and Palate Surgery – Principles in Cleft Surgery

In conjunction with the **MUMC Maastricht**

10th Euregional Course on Aesthetic and Reconstructive Surgery of the Face

Maastricht, February 28th – March 2nd, 2019

Dear Colleagues,

Join us at the “10th Euregional Course on Aesthetic and Reconstructive Surgery of the Face” which will focus on surgical approaches to the face and the dissection of facial soft tissues. Again we were able to assemble an outstanding international faculty to share their exceptional experience by a great variety of lectures and clinical presentations. Anatomical, clinical and practical considerations come to the fore: blepharoplasty, midface and face-lift procedures, local skin reconstructive techniques, lip- and face reconstruction are the key issues of the course.

Special attention will be paid to the topographic anatomy of the face. The audience gets the chance to discuss each surgical step with the surgeon, the anatomist and the faculty members.

Furthermore we offer the opportunity of a **dissection course with exclusively fresh frozen specimen.** The participants will be able to perform all desired procedures and surgical techniques comparable to the real theatre setting. We provide a detailed dissection manual with illustrative step-by-step instructions. Additionally each participant will have the chance of personal teaching by our team of experts.

2017 was the first time that the faculty offered the additional option of an interesting pre-course day on principles in cleft surgery including cadaver dissection as well.

We will provide a professional, yet intimate atmosphere and are looking forward to welcoming you in Maastricht.

Peter Kessler
MUMC Maastricht

Gwen Swennen
GH St-John Bruges-Ostend

Course Topics

- Anatomy of the face
- Anatomy of the skin
- The aging skin
- Approaches to the face under aesthetic aspects
- Dissection of the skin
- Dissection of the SMAS layers
- Lifting and suturing techniques
- Dissection of the facial nerve
- Dissection of local skin flaps
- Lip reconstruction
- Fillers and Botox

Course under the auspices of the S.O.R.G. Academy

Course Directors and Organization

Prof. P. Kessler,
Maastricht, NL

Prof. G. Swennen,
Bruges, BE

Distinguished Guest Faculty

M. Gaboury, Quebec, CA
A. Herrler, Maastricht, NL
A. Lataster, Maastricht, NL
J. Camilo Roldán, Hamburg, DE

Program (optional course day) Thursday, February 28th, 2019

(additional registration necessary)

3rd Course on Palate Surgery – Principles in Cleft Surgery

Anatomy & Embryology, Faculty of Health, Medicine & Life Science
Maastricht University, Universiteitssingel 50, 6229 ER Maastricht

**Hands-on course, limited attendance max. 8 participants,
per participant one fresh frozen cadaver specimen,
09:00 – 17:00**

For details please see separate course program flyer.

Program

Friday, March 1st, 2019

(walking distance from NH hotel)

Anatomy & Embryology, Faculty of Health, Medicine & Life Science
Maastricht University, Universiteitssingel 50, 6229 ER Maastricht

08:30 – 09:00 Registration

09:00 – 09:15 Introduction **Kessler**

09:15 – 10:00 Facial anatomy – part I: **Lataster/Herrler**

- The skin – regional differences
- The lymphatic and vascular system – drainage of the face

10:00 – 10:45 Facial anatomy – part II: **Lataster/Herrler**

- SMAS and mimic muscles – a functional system
- The facial and the trigeminal nerve – a good team
- The parotid gland from a topographic point of view

10:45 – 11:00 Coffee Break

11:00 – 12:00 Facial anatomy as a key issue in a reconstructive and aesthetic surgery of the face **Roldán**

12:00 – 12:30 Discussion

12:30 – 13:30 Lunch Break

Friday, March 1st, 2019

Continuation

13:30 – 14:15 Photo documentation in aesthetic surgery of the face **Kessler**

14:15 – 15:00 Anatomic basis and clinical guidelines for safe application of HA fillers and BTX **Gaboury**

15:00 – 15:30 Coffee Break

15:30 – 16:15 “Step-by-step” surgical technique towards brow-lift, face and neck-lift **Swennen**

16:15 – 17:00 Blepharoplasty – anatomy, incision lines, variations **Swennen**

17:00 – 18:00 The lips – an aesthetic entity of its own **Roldán**

18:00 – 18:15 Introduction to the cadaver dissection course **Kessler**

19:30 Get-together and dinner with the faculty – Restaurant in the Museum, Vrijthof, Maastricht

Saturday, March 2nd, 2019,

09:00 – 16:00 (walking distance from NH hotel)

Anatomy & Embryology, Faculty of Health, Medicine & Life Science
Maastricht University, Universiteitssingel 50, 6229 ER Maastricht

- Hands-on course with exclusively fresh frozen specimen
- Limited attendance / one specimen for two participants
- Personal teaching by the faculty with step-by-step teaching
- Incision / approaches for lifting procedures
- Dissection of the SMAS and sub-SMAS
- Dissection of the fasciae (superficial/innominata/deep) of the temporal muscle
- Dissection of the platysma
- Dissection of the facial nerve
- Dissection of typical local flaps
