

Dear honored colleagues,

it is a pleasure and a honor to invite you to the 15th Joint Symposium Riga-Rostock. The meeting will take place in the City of Rostock, surrounded by the flair of Baltic Sea and enriched by the traditional cooperation and exchanges of the Baltic Universities.

The City of Rostock has celebrated it's 800 years anniversary in the year 2018. This year we celebrate the 600 years anniversary of the University of Rostock, founded in 1419. Rostock's University is the oldest in the Baltic Sea Region, our almost 600 years of knowledge and experience are a solid foundation for futural topics and challenges, even in medicine when facing Plastic and Reconstructive Surgery.

Plastic and Reconstructive Surgery contains a wide range of congenital as well as acquired diseases. Therefore we hope that our scientific program and lectures will enrich your scientific spirit and your professional knowledge. During the futural common two days we would like to collect, to compare and to share our expertise and summarize goals for individualized as well as well interdisciplinary treatment. We hope that your presentation will enrich our common thoughts, results of specialization and individual treatment strategies. It will be a pleasure and honesty for us to welcome you in Rostock.

Scientific papers can be announced up to 15th of April 2019.

With kind regards,
Yours

Prof. Dr.Dr. B.Frerich Prof. Dr. Ilze Akota

Dr.Dr. J.-H. Lenz Prof. Dr. G. Salms
