“MIȘO VIRAG” INTERNATIONAL
HEAD AND NECK
ONCOLOGY COURSE
"Treatment protocols in oral cancer"

5-6 April 2019, Cluj-Napoca, Romania

The Course "Treatment protocols in oral cancer" is of interest for both residents and specialists working in the field of maxillofacial surgery, plastic surgery, otolaryngology and oncology. It draws attention on the recommended protocols involved in the diagnosis and multidisciplinary treatment of oral malignant tumors and their associated regional and general metastasis. The discussion on clinical cases, scheduled for the end of each course day, will demonstrate the application of the asserted principles as well as give the audience the possibility to raise practical questions.

*Looking forward for your participation,
Organizing Committee*

“MIŠO VIRAG” INTERNATIONAL
HEAD AND NECK ONCOLOGY COURSE
“*Treatment protocols in oral cancer*”

Course program

Friday, April 5th

8.00 - 9.00 Registration
