Dear colleagues,

we cordially invite to the 15th Joint Symposium of the universities of Riga and Rostock. This year's meeting will be dedicated to Plastic and Reconstructive Surgery of the head and neck, with emphasis on facial plastic and esthetic surgery. Plastic Surgery is a need in a wide range of congenital and acquired diseases, and there have been significant developments in the last years. We want to highlight some of these developments in the scientific program, which comprises scientific reports, case studies and also educational presentations in order to enhance professional knowledge and to share expertise in the field of plastic facial surgery.

The meeting takes place in the city of Rostock, surrounded by the flair of Baltic Sea and enriched by the traditional cooperation and exchanges of the Baltic Universities, as they are represented by our traditional Riga-Rostock meetings. Rostock has celebrated its 800th anniversary in the last year. This year we celebrate the 600th anniversary of the University of Rostock, which was founded in 1419 as the first university in the Baltic region, and in addition, this year is also the 100th anniversary of the implementation of the first chair in dentistry at the university of Rostock.

We are looking forward to welcome you in Rostock and to discuss these topics in a cooperative and friendly atmosphere,

Yours sincerely,

Prof. Dr. Dr. B. Frerich

Prof. Dr. Ilze Akota

Dr. Dr. J.-H. Lenz

Prof. Dr. G. Salms
