International S.O.R.G. Course

Pre-Conference Hands-on Cadaver Workshop

Free Flaps in Head and Neck Surgery

Course Objectives

- Understand and get to know the relevant anatomy for each demonstrated flap
- Developing an understanding regarding criteria for flap selection
- Explore the surrounding anatomical structures
- Perform the selected free flaps
- Gain self-confidence in flap raising and reconstruction
- Perform flap osteotomies with IPS Cutting Guides for mandibular (fibula ff) and maxillary DICA ff reconstruction

Target Objectives

Free Flaps Module

1. Pectoralis Major, SCAF, DP flaps
2. Tracheotomy/Cricothyroidotomy
3. Radial Forearm Free Flap
4. Anterolateral Thigh
5. DCIA Free Flap with 3D cutting guides
6. Fibula Free Flap with 3D cutting guides

Note

Early booking is advisable due to limited availability of spots.

There will be a parallel "Access Course" module going on at the same time.
