Michael Büttner, Brussels, Belgium
Abel-Jan Tasman, St. Gallen, Switzerland

International Symposium on Nasal Trauma: Primary and Secondary Management

Dear colleagues and friends,

We are pleased to invite you to our first international meeting on nasal trauma in Bern, Switzerland. Rhinoplasty Courses do not often incorporate traumatic nasal injuries. This course will entirely focus on acute and late management of nasal trauma with particular emphasis on contemporary management of post-traumatic nasal deformities. Our international panel of experts will present and discuss the state of the art overall management of these deformities. Post-traumatic nasal deformities are commonly seen and treated by ENT, Plastic and Maxillofacial surgeons. It is hoped that the delegates will be represented by all specialties. The participants will benefit from didactic lectures, video demonstrations and panel discussions. They will also have the opportunity to present and discuss their own challenging cases with faculty members during panel discussions.

We are looking forward seeing you in Bern 2020.

Fabian Schlittler

Course Directors	Fabian Schlittler, Bern, Switzerland Nasser Nasser, London, Great Britain
Location	Room Paradiso, Wirtschaftsgebäude H, Entrance 3, Inselspital, Bern University Hospital, Switzerland
Language	English
Course Costs	CHF 300.00 including meals and coffee
Registration	www.skg.insel.ch/de/RCoPD (only online)
Payment	until 7 th March 2020 (only bank transfer) Details will be sent with confirmation email after registration
CME Credits	SGMKG 8 CME-Points ORL CME-Points requested

Program – Friday 27th March 2020

Room Paradiso, Wirtschaftsgebäude H, Entrance 35
Inselspital, Bern University Hospital, Switzerland

8.00 – 8.30	Registration
8.30 – 8.35	Introduction and welcome F. Schlittler
8.35 – 8.55	Applied anatomy of the nose N. Nasser
8.45 – 8.55	Applied anatomy of nasal septum N. Nasser
8.55 – 9.05	Mechanism of nasal injuries F. Schlittler
9.05 – 9.25	Initial management of nasal trauma F. Schlittler
9.25 – 9.40	Management of Epistaxis following trauma and surgery U. Borner
9.40 – 10.00	Beware of the black eye: Combined midfacial and nasal trauma M. Büttner
10.00 – 10.10	Questions and discussion
<hr/>	
10.10 – 10.30	Coffee break
<hr/>	
10.30 – 10.45	Cartilaginous injuries (an often missed problem) N. Nasser
10.45– 11.00	Longterm Sequelae following nasal trauma N. Nasser
11.00 – 11.20	Understandin nasal obstruction after trauma A-J. Tasman

International Symposium on Nasal Trauma: Primary and Secondary Management

- 11.20 – 11.30 Nasal bone osteotomy for post-traumatic deformities
M. Büttner
- 11.30 – 11.45 Correction of crooked nose deformity
A-J. Tasman
- 11.45 – 12.00 Managing the mutilated / severely deformed septum
N. Nasser
- 12.00 – 12.15 Spreader grafts vs. spreader flaps
A-J. Tasman, N. Nasser
- 12.05 – 12.45 Panel Discussion
All Faculty members and participants
-
- 12.15 – 13.00 Group portrait and lunch break
-
- 13.30 – 14.15 Video Demonstration
All faculty members
- 14.15 – 14.45 Orthognathic surgery and rhinoplasty
M. Büttner
- 14.45 – 14.55 Role of rib cartilage in posttraumatic deformities
N. Nasser
- 14.55 – 15.10 Simplicity in treatment of posttraumatic deformities
A-J. Tasman
- 15.10 – 15.30 Management of posttraumatic septal perforations
U. Borner, F. Schlittler
-
- 15.00 – 15.15 Tea Break
-

International Symposium on Nasal Trauma: Primary and Secondary Management

- 15.50 – 16.05 Nasal trauma in children
F. Schlittler
- 16.05 – 16.20 Saddle nose deformity
N. Nasser
- 16.20 – 16.30 Fillers to correct residual deformities
L. Wauters
- 16.30 – 16.45 Use of diced cartilage with fibrin glue
A-J. Tasman
- 16.45 – 16.50 The role of PDS in septal reconstruction
N. Nasser
- 16.50 – 17.05 Reconstruction of nasal defects (case based)
A-J. Tasman
- 17.05– 17.20 Pearls and Pitfalls of posttraumatic treatment
N. Nasser
- 17.20 – 18.00 Panel discussion: Your questions answered, your difficult cases
discussed
All Faculty members and participants
-
