

# NEWCASTLE SURGICAL TRAINING CENTRE CADAVERIC SPEECH AND PALATE SURGERY COURSE

## 23 November 2021

*This course is designed for ST5-ST8 trainees who are interested in the most recent developments in Plastic Surgery, ENT and OMFS.*

### **Faculty**

Mr Peter Hodgkinson - Consultant  
Mr David Sainsbury – Consultant  
Mr Alistair Smyth – Consultant TBC  
Ms Jacqueline Miller - Speech and Language Therapist  
Dr Sophie Butterworth- Junior cleft fellow

#### Educational Aims of the Course:

- Develop and enhance anatomical knowledge
- Understanding of Specialist Instrumentation
  - Methodical Dissections
- Surgical Procedures to manage complications

This is an intensive one day course with an expert faculty. A series of didactic lectures and edited videos provides step by step tuition covering the speech surgery curriculum.

- Experts on the subject will present the anatomical and technical aspects of procedures along with risks, benefits and outcomes.
- Teaching is through cadaver dissection and you will have **HANDS ON** practical dissection on **FRESH FROZEN** specimens
- Procedures delivered are:

Intravelar veloplasty  
Hynes Pharyngoplasty  
Buccal flap  
FAMM flap  
Furlow's Palatoplasty
