**Benvinguda
Bienvenida
Welcome**

"We want to give you a warm welcome to the Congress of the Catalan-Balearic Society of Maxillofacial Surgery. We invite you to attend Badalona in person to enjoy excellent presentations by top international speakers, but for those who cannot come, they will be able to follow it online"

Josep Rubio Palau

President of the SCBCMO

"It will be a pleasure to meet our colleagues again this February 2022. This congress will give us the opportunity to attend conferences by world-class speakers in a privileged setting in Badalona, next to Barcelona. The most expert hands in reconstructive surgery will show us the latest techniques and tricks"

Jordi Garcia Linares

Programme

11th February

09:00-11:00

Mandibular reconstruction

Reconstruction of extensive composite mandibular defects

► **Julio Acero**

Defect specific selection of bone flaps in mandibular reconstruction
(Online)

► **Alexander Gaggl**

Considerations in Functional Reconstruction

► **Rui Fernandes**

11:00-11:30

Coffee

11:30-13:30

Middle-third facial reconstruction

Advances in the resection and reconstruction of midfacial tumors through computer assisted surgery

► **Majeed Rana**

Defect specific techniques in middle-third facial reconstruction

► **Alexander Gaggl**

Technical alternatives in complex microvascular reconstruction of the midface

► **Julio Acero**

13:30-15:00

Lunch

15:00-17:00

Upper-third facial and Skull base reconstruction

Ablative and Reconstructive Surgery for Maxillofacial Tumors Involving the Skull Base (Online)

► **Chen ping Zhang**

Reconstruction of Scalp and Upper-third facial skin defects

► **Rui Fernandes**

Extended tumors affecting the orbit and the infratemporal fossa. Approaches and reconstruction

► **Julio Acero**

17:00-17:30

Coffee

17:30-19:30

Application of new technologies

Mixed reality in reconstructive surgery

▶ **Majeed Rhana**

Cold Ablation Robot-Guided Laser Osteotome (CARLO[®]): Technology and clinical application in maxillofacial surgery

▶ **Hans-Florian Zeilhofer**

Intraoperative CT-scan in craniomaxillofacial surgery: a step forward in 3D planning

▶ **Josep Rubio**

12th February

09:00-11:00

Adult smile rehabilitation and pediatric patients reconstruction

Craniofacial distraction osteogenesis in pediatric patients

▶ **Josep Rubio**

The ZAGA concept for decision taking on the zygomatic osteotomy

▶ **Carlos Aparicio**

Dental implant rehabilitation after microvascular reconstruction

▶ **Carles Martí**

11:00-11:30

Coffee

11:30-13:30

Complications in Cranio-maxillofacial and Oral reconstructive surgery

Complications in VSP performing orthognathic surgery

▶ **Majeed Rana**

Perioperative Management of Microsurgery

▶ **Chen ping Zhang**

Avoiding common pitfalls in microsurgery

▶ **Rui Fernandes**
