

AO CMF Lighthouse Course— Aesthetic and Functional Surgery of the Face and Neck

(with Human Anatomical Specimens)

April 27–29, 2022
Vienna, Austria

COURSE ANNOUNCEMENT

Course description This new course includes three days of intensive, hands-on practical exercises. It will focus on the management of aesthetic, functional, and secondary issues related to aging and congenital, posttraumatic and tumor pathologies. It will include core procedures (soft tissue and bone) for the nose, eyes, ears, and lips, as well as facial palsy and feminization. The content focuses on implementation in daily practice and patient safety.

Course modules

1. Injectable treatments
2. Oculoplastic surgery
3. Facelift, neck lift, and upper lip lift
4. Otoplasty
5. Rhinoplasty
6. Facial nerve and facial palsy
7. Transgender and facial feminization surgery

Course format Each procedure is addressed in a 3-step approach:

1. Presentation (or video) to introduce the steps around a case
2. Demonstration of the procedure by expert faculty
3. Participants complete the procedure and receive faculty feedback
