Dear Colleagues,
Dear Friends,

Our Maxillofacial Surgery specialty has historically and regularly stood out, helping victims of conflicts, attacks and wars, and caring for their injured and mutilated faces.

History is calling us again for a sad rendez-vous in the extremely serious context of the war between Russia and Ukraine.

The French Society of Stomatology, Maxillofacial Surgery and Oral Surgery (SFSCMFCO) is once again ready to look after some facial injured victims who could be repatriated to France and directed to French facilities equipped with the adapted resources and technology. Victims will thus benefit from the competence and experience of French Maxillofacial Surgeons.

To this end, our Society is currently taking steps with the Gueules Cassées Fondation, the French Parliament, the Ministry of Health and the Army Ministry to develop a clear and effective action plan, to act together and deal with the most serious traumas and injuries.

We will of course work closely with our colleagues from other European countries through the European Association for Cranio-Maxillo-Facial Surgery.

We sincerely hope that our efforts will be facilitated by the motivation and collaboration of the authorities.

Our Society wishes to express its solidarity and support to the victims and their families,

Dr Blandine RUHIN
SFSCMFCO 2020 President

Dr Patrick-Yves BLANCHARD
SFSCMFCO 2022 President
