

# European Association for Cranio - Maxillo - Facial Surgery

## STATEMENT IN UKRAINE

The European Association for Cranio-Maxillofacial Surgery (EACMFS) condemns the military invasion of the Russian Federation with the support of Belarus in Ukraine and expresses its wholehearted solidarity with the people of Ukraine.

The EACMFS will make any effort possible to support materially the Ukrainian medical specialists and especially surgeons and nurses working under extreme conditions and great personal risk daily. Specific measures are considered in joint collaboration with the National Councillor and the maxillofacial surgeons in the main cities of Ukraine.

EACMFS stands in solidarity with the people of Ukraine in their hour of need while our thoughts and admiration are with all colleagues who deliver medical care under such harsh conditions.

We hope that this war at the heart of Europe will cease immediately.
