## EXTENDING COLLABORATION BORDERS

2nd International Congress of Azerbaijan Society of  
Oral&Maxillofacial Surgeons scientifically  
sponsored by EACMFS

12-14 October 2023  
Baku, Azerbaijan

## 2<sup>nd</sup> AzOMFS International Congress

12-14 October 2023  
Baku, Azerbaijan

### Dear colleagues!

As the President of Azerbaijan Society of Oral & Maxillofacial Surgeons (AzOMFS), I cordially invite You to the 2nd International Congress of AzOMFS which will held on 12-14th October 2023 in Baku.

It is with great pleasure that we will host you in a city comparable to no other with great similarities to our craft, burning with passion for science and innovation. With an approval of EACMFS, the Congress to be held in Baku will be scientifically sponsored by EACMFS. Since our first conference in 2019, distinguished guests from 17 countries confirmed that AzOMFS is capable of hosting such a prestigious event in Baku. After the Congress held in Madrid in September 2022, it was the EACMFS executive committee, councilors representing national organizations, leading scientists and specialists in this field gave me encouragement and support. According to the pre-arranged agreement, more than 1000 participants from European and Asian countries and also from all over the world are expected to participate this event.

It is my utmost delight to welcome you in Baku, and show you the past, present and future not only in oral&maxillofacial surgery but also in regard of our culture, history and modern development. Our goal is to make the regions feel the same atmosphere felt in the center of the Europe.

As a transcontinental country, we intend to overcome intercontinental borders in the field of science with your participation. I kindly ask you to join us in our pursuit to «Extending collaboration borders» and lead the way for future generations.

With your contribution we can make this a milestone in the foundation of modern maxillofacial surgery and create an international platform for exchange, discussion and debate of information to take us further and fight against current boundaries.

**Professor  
Chingiz Rahimov**

President  
of Azerbaijan  
Society of Oral and  
Maxillofacial surgeons

The Congress will be held in one of the most modernly equipped facilities “Baku Congress Center” The Center located in a convenient location in terms of infrastructure, is an ultramodern site, capable of ensuring the holding of any event at the highest international level. Possessing a large number of easily adaptable conference rooms, the Center offers excellent opportunities for the large scale Congresses.

The complex also includes dozens of easily transformable rooms for holding different scale conferences, 2 mobile and 20 wall (information) monitors. A territory of more than 4000 m<sup>2</sup> is allocated for large scale exhibitions, as well as cafe and restaurant and of course a designated carpark is being offered. All above mentioned characteristics make the venue highly desirable not only for local but also international events.
