

AO CMF Course— Management of Facial Trauma

[REGISTER NOW!](#)

September 7-8, 2023

Nottingham, United Kingdom

Course description

This course provides learners with the fundamental knowledge and principles for the treatment of craniomaxillofacial fractures and their complications. It covers diagnostic and treatment principles for midface and mandibular fractures, as well as the prevention and treatment of complications.

1. Online preparations—4 weeks prior to the face-to-face event

Participants complete a self-assessment and conduct online self-study, including recommended reading material, viewing videos, and completion of surgical simulation modules.

2. Face-to-face event—2 days

Short lectures, small group discussions, and practical exercises.

3. Online follow-up

Complete an online evaluation.

Registration Fee

Standard Ticket: CHF 850.00

Member Plus with 10% discount : CHF 765.00
