Z. Stopa, Poland

Course description – Programme

This two-day hands-on workshop on fresh frozen human anatomical specimens is an integral part of the EACMFS Postgraduate Programme in Head and Neck Surgery: Oncology (2025).

The course provides a comprehensive overview of ablative and reconstructive techniques, with each session beginning with an introduction and then progressing to a hands-on demonstration. Participants will be divided into groups of four, each group working with one specimen station. Under the guidance of experienced surgeons, attendees will have the opportunity to practice the procedures and gain valuable insights, tips, and tricks.

Tuesday
21 October 2025

Start	End	Title	Faculty	Minutes
08:20	08:45	Registration		30
08:45	09:00	Welcome and introduction	Julio Acero Christos Perisanidis	15
